

Sentara. Halifax Regional Hospital.
Our mission. To improve health everyday.

Sentara Healthcare is one of the most progressive and integrated health care organizations in the nation. Sentara operates more than 100 care giving sites, including 12 acute care hospitals, outpatient care facilities, nursing centers, assisted living centers, advanced imaging centers and primary care and multi-specialty physicians. Sentara also offers a full range of award-winning health coverage plans, home health and hospice services, physical therapy and rehabilitation services.

We invite you to share our Vision. To be the healthcare choice of the communities we serve.

We are currently seeking a **Laboratory Supervisor in Microbiology**. The qualified candidate is responsible for providing technical and administrative leadership of the Clinical Microbiology department, resulting in quality, cost effective, and compassionate patient care. **Required qualifications** include: Bachelor's Degree in Medical Technology. Registered as a MT by the American Society of Clinical Pathologists. Five years of relevant experience required.

Company Benefits

Sentara Halifax Regional Hospital recognizes our employees by offering competitive pay plans, comprehensive health care plans, generous paid annual leave, a 403b plan, long and short term disability, tuition reimbursement, life insurance, and wellness programs. You can expect employee recognition, plus countless services and programs to enhance work/life balance. Many of our benefits are fully funded or shared, therefore enhancing your total compensation.

City Description

While you are not working for Sentara Halifax Regional Hospital you can enjoy the many offerings of our area. The South Boston, Southside Virginia area surpasses most. Whatever you are looking for in a lifestyle we have. You will find beautiful scenery, lakes, rivers, VA state parks, endless recreational, cultural and historical activities.
