

2015 Fall Meeting Report - SC Director

Date:

I'm still working on finding a date to have the meeting here at GHS in late March/Early April.

Topics/Speakers:

Clinical Virology or Case Studies - Rick Hodinka

Topic in the works - BioFire sponsored speaker

Performing Environmental Microbiology in the Clinical Lab – joint presentation GHS Micro and Infection Prevention

I'm looking for one more topic – something more micro based to balance out the virology/molecular topics. If anyone has an idea, I'd love to hear it!

Food:

Biofire will sponsor lunch.
